## Latest News

Season three of KSOA Volleyball was a little more normal, but still had its share of challenges. Schedules changed often and officials had to practice their skills in patience and grace as we navigated through the season. All in all I would say it was a success. Post season was back to normal this year, much to the delight of the coaches, although I've heard many officials say they really liked last seasons lay out better.

The Volleyball committee continued to share HUDL video with officials as it was made available to us. We did ask schools to provide sub varsity video, but most schools shared that they only have one device to record HUDL video, so recording sub varsity isn't possible in most cases. Scheduling of observations this year was a challenge to say the least. Many observations were scheduled and cancelled due to the official to be observed no longer working the match, or the observer being pulled to work a match elsewhere. We were able to accomplish 54 in person evaluations.

Congratulations to all KSOA officials who were selected to officiate postseason!!
